Ingersoll Rand Security & Safety Consultants of New England

| | |
|---|---------------------|
| CODES AND DOOR HARDWARE | 1 HSW CREDIT |
| A discussion of some of the basic hardware required to make the openings on your project serve the owner while still meeting Life Safety, Fire Codes and Accessibility Standards. Additionally, we will touch on some of the problems created when trying to meet these requirements and how to solve them. | |
| CODE JEOPARDY | 1 HSW CREDIT |
| Code Jeopardy is an interactive presentation on codes and how they effect door hardware. Based on the format of the TV show "Jeopardy", this program engages the participants who team up to "ring in" their answers in a lively learning experience. Put your thinking caps on and get ready to play. | |
| HOW SAFE IS YOUR SCHOOL? | 1 HSW CREDIT |
| A presentation that addresses the many challenging architectural openings found in a typical school. Our discussion will review the goals of Life Safety Standards, Fire Codes and Accessibility Standards, and how security is affected by addressing these goals? Can you meet all the requirements? | |
| HEALTHCARE FACILITIES & DOOR HARDWARE: PROBLEMS / SOLUTIONS | 1 HSW CREDIT |
| A presentation that addresses the many difficult architectural openings found in a typical healthcare facility. Our discussion will review the goals of Life Safety Standards, Fire codes and Accessibility Standards. Included in this discussion will be a frank review of the ANSI Grade 1 Standards and how you can control the quality of the product selection on your project. | |
| ELECTRIC TIC TAC TOE | 1 HSW CREDIT |
| An interactive presentation done in the format of the "age old" game. The subject is electric hardware, access control and codes that relate to their use, as well as insight into which products will help solve your clients needs. | |
| SPECIFYING ELECTRIC HARDWARE | 1 HSW CREDIT |
| HELP! My owner wants to electrically control the access to OR the egress from his facility." Every time I do this, problems occur. Someone thinks we left something out." What questions should you ask that will help to avoid this problem? How can you ensure that you specified all the right pieces? | |
| HEALTHCARE HARDWARE - JEOPARDY | 1 HSW CREDIT |
| An interactive presentation based on the TV show that invites attendees to team up to answer questions related to hardware in healthcare applications. Product solutions, code requirements and things to be aware of. | |
